## PISTACHIO

The Middle East is the home to pistachio, and Iran has long been one of its primary producers and exporters. Pistachio is originally from Iran. Even the pistachio grown today in California is of Iranian origin, with its most delicate type named Kerman (a city in Iran).

Pistachios are a great source of healthy fats, fiber, protein, antioxidants and various nutrients, including vitamin B6 and potassium.

In Negin Elixir, we offer all kinds of Iranian pistachio (the most important ones shortly described below) in packages of 10, 25, and 50 kilograms. These pistachios are divided into two groups of in-shell and kernel. In-shell pistachios are mostly consumed as dried nuts & fruits, and kernels are generally used in making cakes, pastries and in the food industry.

# Pistachios

## Ahmad Aghaei

Ahmad Aghaei (aka Khandan, or smiling), distinguished from other pistachios by its whitish shell and red kernel, is long and almond-shaped, most popular in East Asia, especially in India and China. It is ready for harvest in mid-September and is available in sizes 20-22, 22-24, 24-26, 26-28 and 28-30, 30-32

## Akbari

Akbari is long and large, with a beautiful and luxurious look plus its delicate taste. This type of pistachio is trendy in the countries around the Persian Gulf. Akbari is ready for harvest in late September and is available in Sizes 18-20, 20-22, 22-24, 24-26, 26-28.

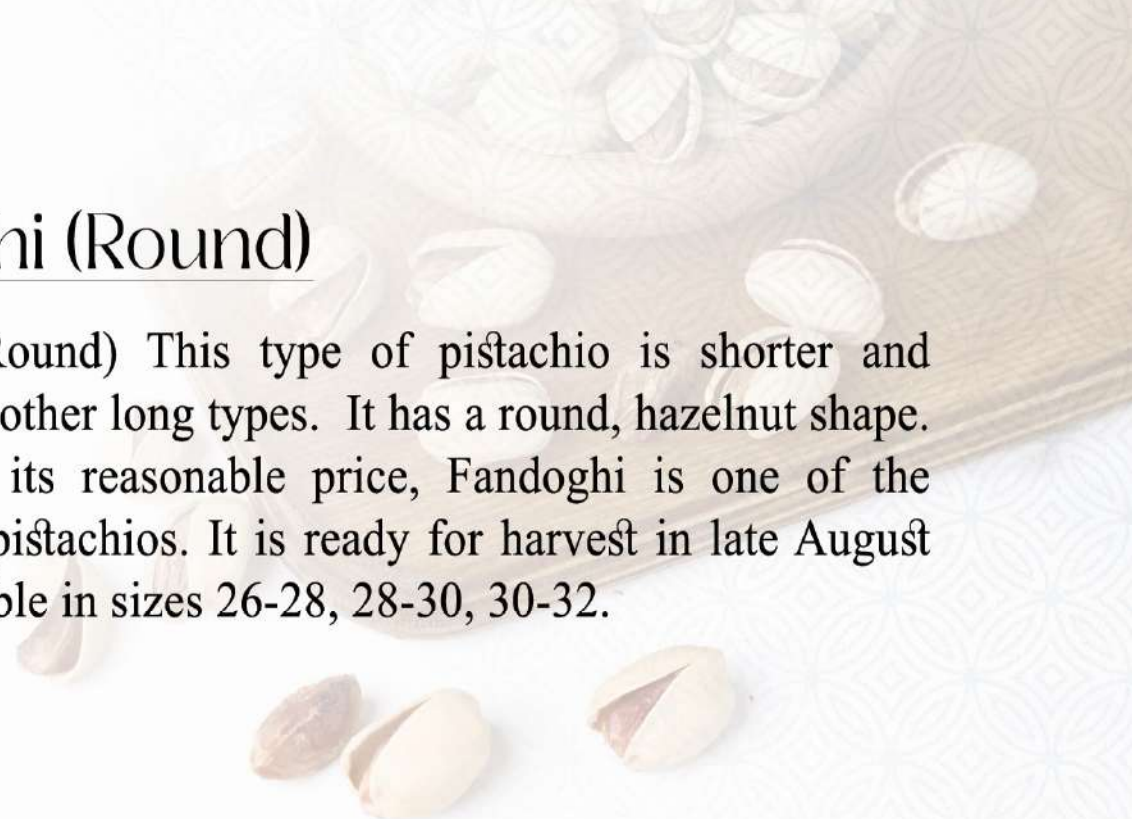

## Kalle Ghouchi (Jumbo)

Ahmad Aghaei (aka Khandan, or smiling), distinguished from other pistachios by its whitish shell and red kernel, is long and almond-shaped, most popular in East Asia, especially in India and China. It is ready for harvest in mid-September and is available in sizes 20-22, 22-24, 24-26, 26-28 and 28-30, 30-32

## Fandoghi (Round)

Fandoghi (Round) This type of pistachio is shorter and smaller than other long types. It has a round, hazelnut shape. Considering its reasonable price, Fandoghi is one of the best-selling pistachios. It is ready for harvest in late August and is available in sizes 26-28, 28-30, 30-32.

## Normal Pistachio Kernel

As its name suggests, this type of kernel is obtained from unripe pistachios harvested between April and August. The measure for these kernels quality is their color, the more they look green, the richer they are.

The Middle East is the home to pistachio, and Iran has long been one of its primary producers and exporters. Pistachio is originally from Iran. Even the pistachio grown today in California is of Iranian origin, with its most delicate type named Kerman (a city in Iran).

These pistachios are divided into two groups of in-shell and kernel. In-shell pistachios are mostly consumed as dried nuts & fruits, and kernels are generally used in making cakes, pastries and in the food industry.

# Saffron

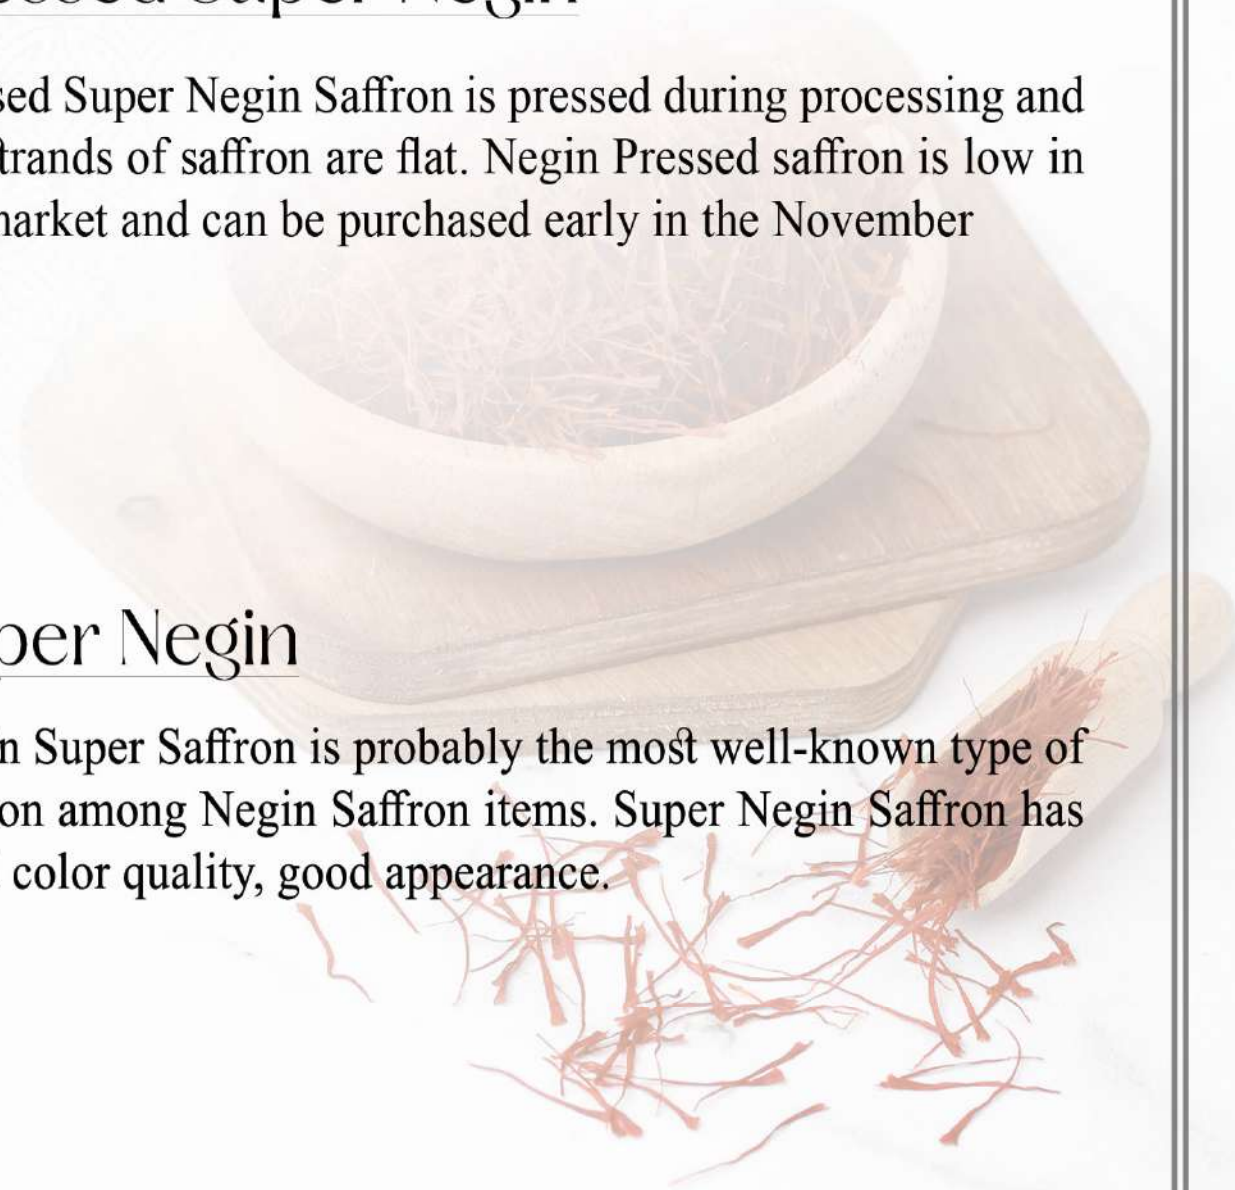

## Pressed Super Negin

Pressed Super Negin Saffron is pressed during processing and red strands of saffron are flat. Negin Pressed saffron is low in the market and can be purchased early in the November

## Super Negin

Negin Super Saffron is probably the most well-known type of Saffron among Negin Saffron items. Super Negin Saffron has good color quality, good appearance.

# SAFFRON

## Negin

Negin Saffron among all types of Saffron has medium to high grade and it also has good color quality, good appearance.

## Super Sargol

Super Sargol Saffron is of high quality and the saffron flower are completely large and clean. Super Sargol Saffron is suitable for customers who are looking for saffron with high quality.

## Sargol

Ordinary sargol saffron is usually used for packaging and its flowers are weaker than the Super Sargol Saffron , however both of them have same color quality.

## Pushal with Flower

Poushal saffron with flower, as its name implies, has a larger flower and higher quality than any other item. Various types of Pushal saffron available in the market and “Pushal Saffron with Flower” is the best of them and as its name implies, has a larger flower and higher quality than any other item.

## Pushal

Ordinary Pushal saffron may be the most abundant saffron available in the Iranian market that many farmers produce.

Iranian Dates in different types and size is a good source for Iron and Potassium full of Minerals and antioxidants. Dates are stated in one category of dried fruit and both are sweet but their taste & texture are different. Once you try Iranian Dates, you will ignore other kinds of high content sugary snacks which are detrimental for health.

Negin Elixir with many good experience in manufacturing and exporting dried fruit is here to supply all kinds of Iranian Dates: Mazafati, Piarom, Kabkab, Sayer, Khasouei and Zahedi.

Negin Elixir's Dates are available in Bulk and Consumer packs for direct consumption.

# Dates

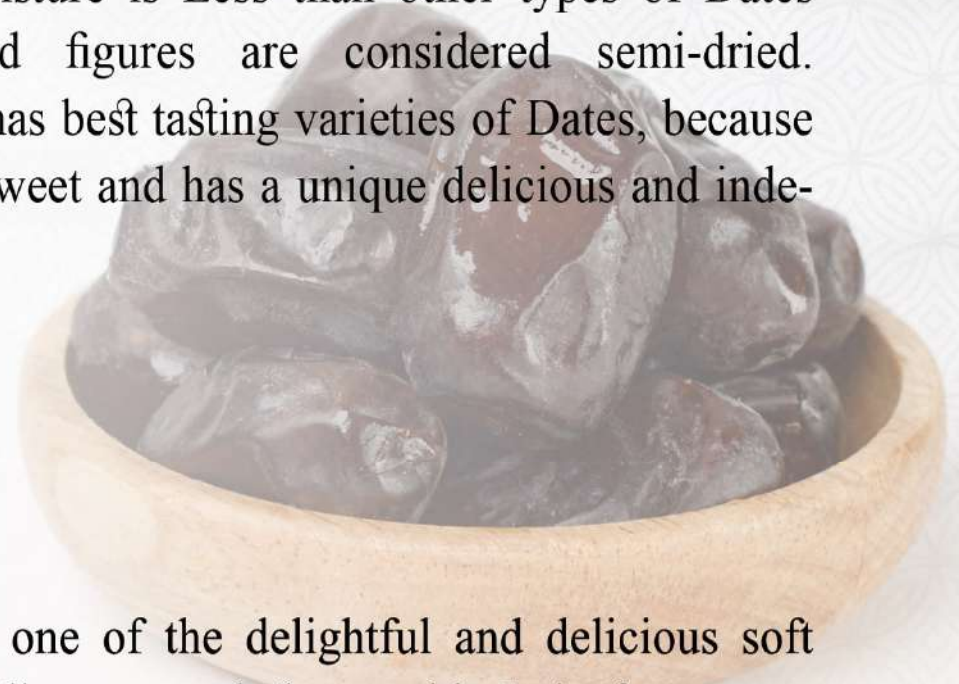

## Piarom

Piarom's Date moisture is Less than other types of Dates (under %15) and figures are considered semi-dried. This kind of date has best tasting varieties of Dates, because this Date taste is sweet and has a unique delicious and indescribable taste.

## Mazafati

Mazafati Dates is one of the delightful and delicious soft Dates among Muslims around the world. It is famous as Rotab. Recently other countries are interested in this type of Date too. It must be kept in cool climate warehouses. This type of Date has the highest content of moisture between other types

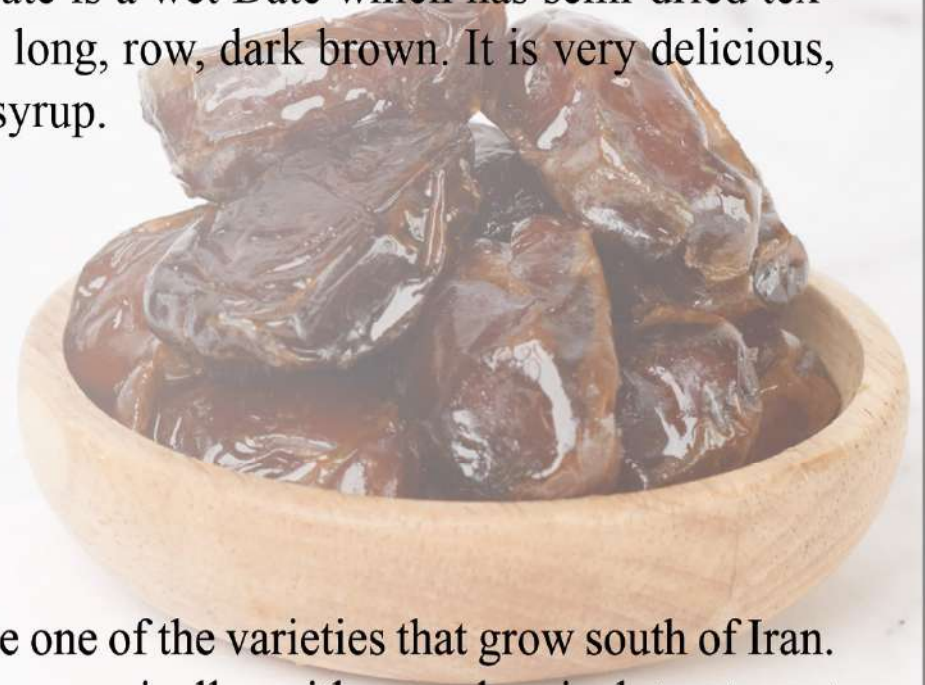

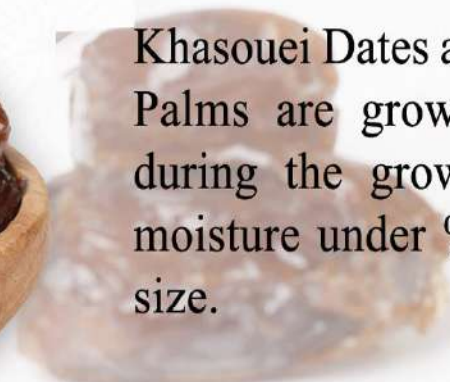

## Kabkab

Iranian Kabkab Date is a wet Date which has semi-dried texture, and also it is long, row, dark brown. It is very delicious, sweet and full of syrup.

## Khasouei

Khasouei Dates are one of the varieties that grow south of Iran. Palms are grown organically with no chemical treatment during the growing season. This date is semi-dried with moisture under %15. It is dark brown in color and round in size.

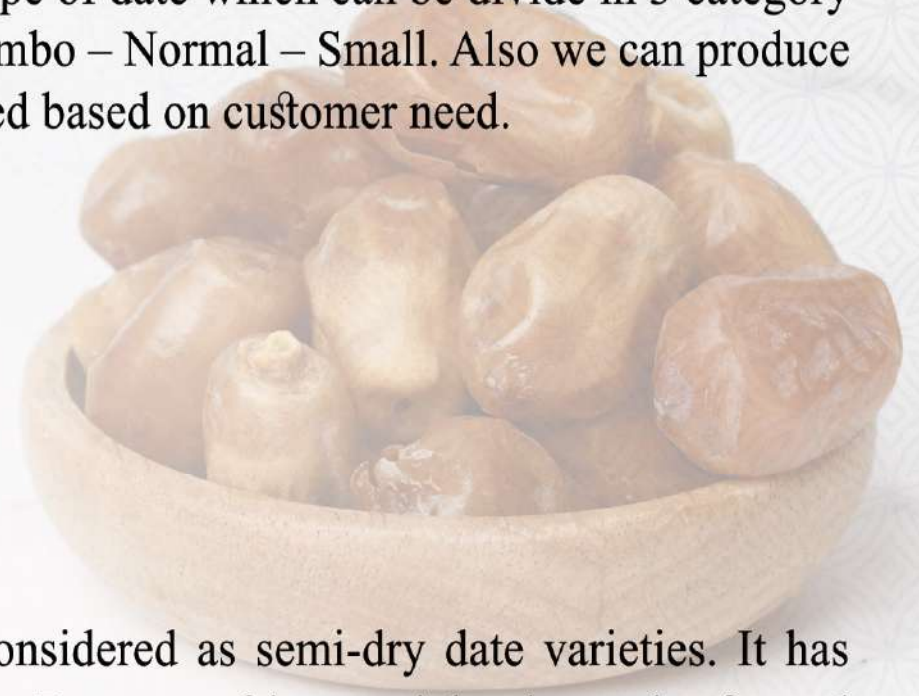

## Sayer

Sayer date is a type of date which can be divide in 3 category based on size: Jumbo – Normal – Small. Also we can produce pitted and unpitted based on customer need.

## Zahedi

Zahedi date is considered as semi-dry date varieties. It has light brown color. Because of its special color and taste and also easy warehousing condition, it's very popular among customers around the world.

## Rutab

Rotab date is a semi-ripened date fruit with an attractive brown color, which is called “wet” in North America. Kabkab rutab is one of the best rutab, which has wonderful sweet taste.

## Raw Date

Raw or Kharak date is unripened date fruit. Raw date is still hard and its color changes to yellow, orange or red. It is not as sweet as Rutab or Date but due to its high mineral content has various remedial and nutritious values.

## RAISIN

---

Raisins are obtained primarily by drying grapes, either in the sun or driers, which ultimately turns the color of grapes into golden, green or black. They are naturally sweet in flavor. Negin Elixir's Raisins have approved quality, with its high nutrition and powerful health benefits.

Raisins&Sultana are produced from the same grape and the only difference is the way they are dried. Raisins&Sultana are dried naturally while golden raisins are treated with SO<sub>2</sub> during its process.

Negin Elixir supplies the highest quality of: Golden Raisns, Long Golden, Long Green, Sultana and Sun Dried (Thompson).

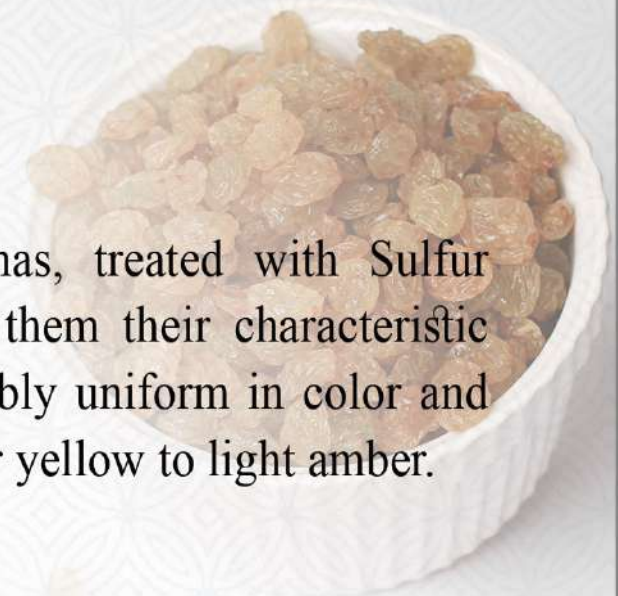

# Raisin

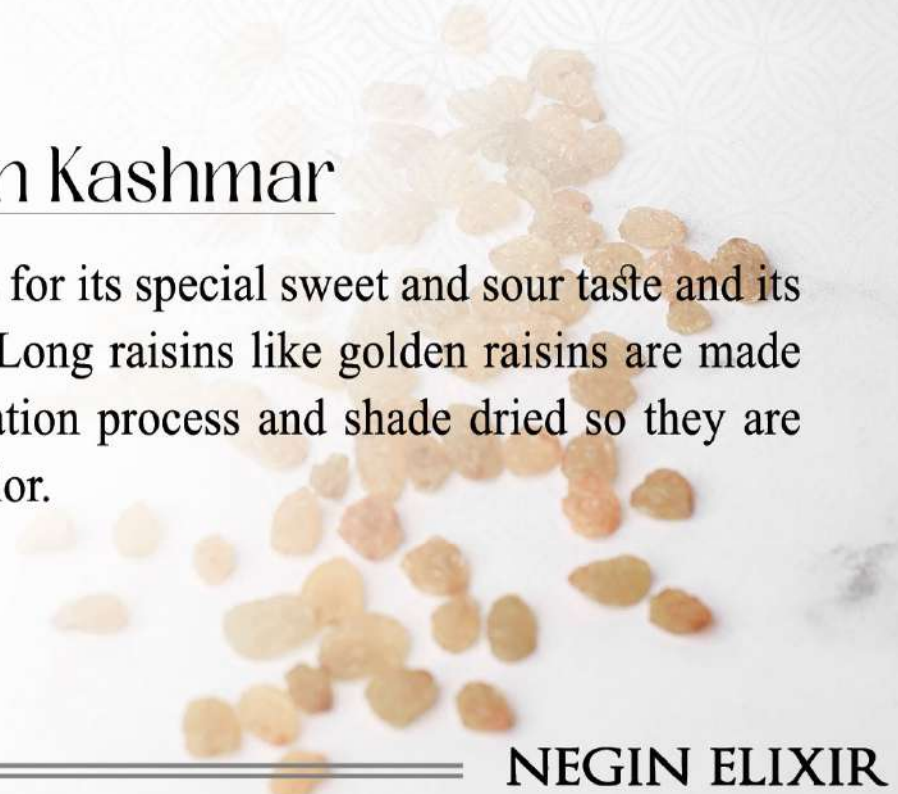

## Golden

Golden raisins made from Sultanas, treated with Sulfur Dioxide, and flame dried to give them their characteristic color. This nice product is reasonably uniform in color and may range from yellow or golden or yellow to light amber.

## Long Golden Kashmar

This type is famous for its special sweet and sour taste and its long length shape. Long raisins like golden raisins are made using sulfur fumigation process and shade dried so they are golden amber in color.

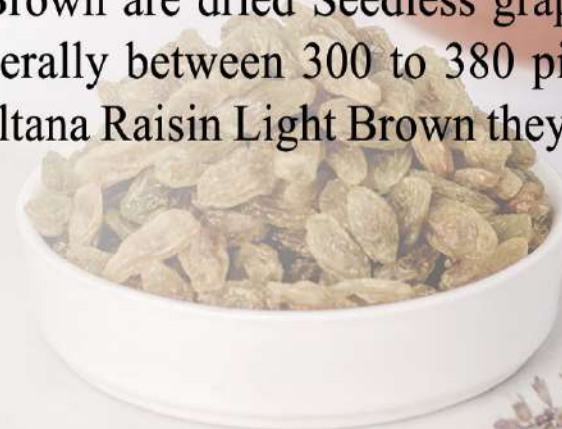

## Long Green Kashmar

Green raisins are reasonably uniform in color and may range from green or light green to yellow. Kashmar raisins also know as green long raisins. The taste is more natural and grown in kashmar, Iran.

## Sultana

Sultana Raisins Dark Brown are dried Seedless grapes. This raisin berry size is generally between 300 to 380 pieces per 100 gr. Compared to Sultana Raisin Light Brown they are a bit smaller.

## Convenient Financing Solutions

With a network in Tehran, Düsseldorf, Dubai, Doha, and Hong Kong, we can trade different commodities based on customers' needs and handle financing in multiple currencies, avoiding usual limitations

## Complete transportation solutions
